

POLICY STATEMENT

As part of Trasan's commitment to ensuring financial sustainability, the risk management policy is to provide guidance regarding the management of risk to support the achievement of corporate objectives, protect staff and business assets.

AIMS AND OBJECTIVES

Trasan recognises that risk is inevitable in all functions of the business and must be managed so as to maximise business opportunities and minimise adverse consequences. The aim of the risk management policy is to adopt a process for identifying prioritising and treating all risks, establishing a framework and infrastructure that becomes part of the organisations culture.

Risk profiles can be categorised as:

- strategic
- operational
- financial
- organisational
- hazard (political, environmental, regulatory)

RESPONSIBILITIES

Trasan will implement suitable systems of risk identification and management to ensure that the organisation is not exposed to risks associated with the workplace and Building Construction industry.

Management is responsible for establishing and implementing the risk management system to identify, control and manage the risk profiles categorised.

Employees, Subcontractors, contractors and all stakeholders are responsible for identifying and reporting of possible risk to assist with the continued development of the risk management System.

Signed:

Position: Managing Director – Travers Clarke
