CAPABILITY STATEMENT: SCAFFOLDING DIVISION

COMPANY PROFILE

Trasan is a high calibre and well established multi-disciplinary building service provider.

The company has firmly embedded relationships across the supply chain in the Pilbara region, serving clients across Western Australia.

With a track record spanning over 20 years, the business currently delivers a broad range of building, construction, maintenance, scaffolding and consulting services in the Pilbara region.

Trasan is owned and operated by Travers & Sandi Clarke, and in often demanding regional conditions, pride themselves on their ability to deliver excellence in all aspects of quality, safety and customer service, whilst meeting client expectation.

The business enjoys a reputation for exceptional local knowledge, energy and commitment to quality and sustainable project outcomes.

a reputation for
exceptional local
knowledge, energy
and commitment
to quality

Trasan's capability extends to;

- Heavy industrial, commercial and residential construction
- Buildings and facilities maintenance
- Support services including; project management and skilled staff deployment
- Scaffolding Division; planning, operational and advisory services
- Consultation services
- Specialist project recovery services

Trasan are a local employer who are actively involved in supporting the local community through its sponsorship of local junior sporting groups and charities.

Major customers in the region include Sodexo, Woodside, Pilbara Port Authority, Yara Pilbara, Department of Finance, Broadspectrum, ISS and the City of Karratha.

VISION & VALUES

Our vision is to be recognised as the Pilbara's preferred supplier and contractor for responsible projects in the heavy industrial, commercial & residential sectors, together with a range of associated services.

Our business culture is evidenced through our local knowledge and our energy and commitment to delivering high quality, sustainable project outcomes for our clients. Everything we do adheres to an established framework of safety, timescale and value.

SCAFFOLDING DIVISION OVERVIEW

At Trasan, we made a strategic decision some time ago to develop our own Scaffolding Division. We recognised that by having this expertise and resource in-house, it would enable us to fulfil a broader range of project scope for our clients. This approach has clear benefits; it saves our clients considerable time and operational cost in coordinating multiple suppliers for certain projects and ensures project delivery times are optimized. This is part of our integrated approach to successful project delivery.

Kirk Packham Scaffolding Supervisor

Our established Scaffolding Division is led by Kirk Packham. Our Scaffolding Division team possess a wide range of experience and skills, including in-house engineering and design for scaffolding projects.

Scaffolding is one of a number of key access services we offer for engineering, construction and maintenance projects in the energy, residential, public sector, industrial and resources sectors. We are able to offer optional services including computer aided design and drafting on request.

Trasan delivers innovative solutions that provide the safest, most practical and cost-effective methods of meeting the specific access requirements of each project. Our capabilities range from engineered scaffolding services, labour supply and stock control, through to logistics and transportation. This enables us to be a single point of contact and delivery for a range of project requirements.

With over 20 years' experience across the Pilbara regions and further afield, we have the ability to provide clients with the highest quality services in the most remote locations, supported from regional workshops and offices. Our experience in working in challenging environments is amongst the highest in the region. We employ and train our own workforce, ensuring we maintain consistent high standards and working processes and procedures at all times.

We pride ourselves on our responsive approach. Our fleet of fit-for-purpose vehicles - including single utes, trucks and trailers - are regularly mobilised on behalf of our clients at a moments' notice.

As you would expect, our employees have a strong focus on Systems of Safe Work, which not only protects their health and wellbeing, but ensures all regulatory demands are met. This is beneficial to our clients and also helps meet our own legal obligations. Safety is paramount at all times.

Risk & Safety Management

As part of our commitment to achieving the principles of health and safety in our workplace, we recognise our moral and legal responsibility to provide a safe and healthy work environment for workers, contractors, customers and visitors. This commitment also extends to ensuring that risk management is an integral part of the company's approach to decision making and accountability, and that all personnel within the company are responsible for the management of risks that relate to their particular area of work.

Quality Assurance & Accreditations

Trasan is working towards achieving ISO accreditation and is developing and implementing Systems standard ISO Occupation Health, ISO 45001:2018 Systems and Safety Management, ISO 9001:2008 Quality Management Systems and ISO 14001:2004 Environmental Management Systems.

Indigenous Engagement & Gender Equality

Trasan is committed to implementing programs to assist indigenous Australians to grow and prosper within the small business sector.

Currently we give precedent to 50% owned Aboriginal suppliers.

We are currently seeking mentoring and alliance opportunities for mutual benefits.

Trasan is currently 50% owned and operated by Mrs Sandi Clarke, we are also committed to offering equal opportunities to female apprentices and other applicants as and when employment opportunities arise.

Environmental Statement

As part of our commitment to achieving the principles of responsible environmental management, sustainability and protection of the natural environment in our workplace, we recognise our moral and legal responsibility to ensure that our activities, products and services are designed to protect and enhance the environment in the communities in which we operate, and our obligations to ensuring that our operations do not place the natural environment or the local community at risk of harm.

Facilities

Trasan boasts a range of in-house facilities, plant and machinery at our operational base in Karratha. Operational and Project personnel are based at the facility and the management of all operational assets and equipment is carried out at this location.
