Capability Statement

COMPANY PROFILE

Trasan is a high calibre and well established multi-disciplinary building service provider.

The company has firmly embedded relationships across the supply chain in the Pilbara region, serving clients across Western Australia.

With a track record spanning over 20 years, the business currently delivers a broad range of building, construction, maintenance and consulting services in the Pilbara region.

Trasan is owned and operated by Travers & Sandi Clarke, and in often demanding regional conditions, pride themselves on their ability to deliver excellence in all aspects of quality, safety and customer service, whilst meeting client expectation.

The business enjoys a reputation for exceptional local knowledge, energy and commitment to quality and sustainable project outcomes.

a reputation for
exceptional local
knowledge, energy
and commitment
to quality

Trasan's capability extends to;

- Heavy industrial and commercial construction
- Buildings and facilities maintenance
- Support services including; scaffolding, project management and skilled staff deployment
- Consultation services
- Specialist project recovery services

Trasan are a local employer who are actively involved in supporting the local community through its sponsorship of local junior sporting groups and charities.

Major customers in the region include Sodexo, Woodside, Pilbara Port Authority, Rio Tinto, Santos, Yara Pilbara, Department of Finance, Broadspectrum, ISS and the City of Karratha.

VISION & VALUES

Our vision is to be recognised as the Pilbara's preferred supplier and contractor for responsible projects in the heavy industrial & commercial sectors, together with a range of associated services.

Our business culture is evidenced through our local knowledge and our energy and commitment to delivering high quality, sustainable project outcomes for our clients. Everything we do adheres to an established framework of safety, timescale and value.

Typical Process of Engagement

Over the last 20 years, we have successfully delivered projects for:

Risk & Safety Management

As part of our commitment to achieving the principles of health and safety in our workplace, we recognise our moral and legal responsibility to provide a safe and healthy work environment for workers, contractors, customers and visitors. This commitment also extends to ensuring that risk management is an integral part of the company's approach to decision making and accountability, and that all personnel within the company are responsible for the management of risks that relate to their particular area of work.

Quality Assurance & Accreditations

Trasan is ISO accredited and has implemented Systems standards ISO 45001:2018 Occupational health and safety management, ISO 9001:2015 Quality management systems, ISO 14001:2015 Environmental management systems.

Indigenous Engagement & Gender Equality

Trasan is committed to implementing programs to assist indigenous Australians to grow and prosper within the small business sector.

Currently we give precedent to 100% owned Aboriginal suppliers.

We are currently seeking mentoring and alliance opportunities for mutual benefits.

Trasan is currently 50% owned and operated by Mrs Sandi Clarke, we are also committed to offering equal opportunities to female apprentices and other applicants as and when employment opportunities arise.

Environmental Statement

As part of our commitment to achieving the principles of responsible environmental management, sustainability and protection of the natural environment in our workplace, we recognise our moral and legal responsibility to ensure that our activities, products and services are designed to protect and enhance the environment in the communities in which we operate, and our obligations to ensuring that our operations do not place the natural environment or the local community at risk of harm.

Systems & Processes

Trasan is committed to migrating a greater proportion of our Business Management Systems into the cloud, using products that offer open sourced and integrated options for communicating with our clients. Business activities that are currently managed using cloud applications include;

- General Administration
- Human Resources
- Finance
