

POLICY STATEMENT

As part of Trasan's commitment to achieving the principles of responsible environmental management, sustainability and protection of the natural environment in our workplace, we recognise our moral and legal responsibility to ensure that our building construction activities, products and services are designed to protect and enhance the environment in the communities in which we operate, and our obligations to ensuring that our operations do not place the natural environment or the local community at risk of harm.

AIMS AND OBJECTIVES

Trasan is committed to contributing positively to the prevention of pollution and environmental conservation. We will achieve this by working with our customers, suppliers and the community to adopt procedures that:

- reduce waste through innovative work practices and recycling practices
- minimise environmental impacts by reduction of polluting substances produced by our operations, activities, products or services
- minimise the impact of our operations on the neighbouring natural landscape
- increase the use of environmentally acceptable materials, equipment and technology in place of those which are considered harmful
- ensure that our suppliers follow acceptable environmental policies
- Identify emergency scenarios and potential incidents that may impact on the environment and establish procedures for their prevention and response
- Consult with our employees and engage with interested parties to improve our environmental management performance and that of others operating within the construction industry.
- Maintain a certified Environmental Management System in accordance with the requirements of ISO 14001:2015.

RESPONSIBILITIES

Trasan recognises that the overall responsibility for environmental sustainability rests with management, who will be accountable for the implementation of this policy.

These responsibilities include:

- compliance with applicable legislation
- identifying environmental risks
- ensuring that all environmental policies and procedures are implemented and accessible through our website and digital and hardcopy records for all interested parties;
- establishing measurable objectives and targets to ensure continued improvement aimed at the elimination of waste, pollution and environmental harm;
- encouraging consultation and co-operation between management, workers and stakeholders in matters which may affect or impact on the environment; and
- providing adequate resources to meet these environmental commitments.

Workers also have responsibilities, which include:

- following all environmental policies and procedures; and
- recognising and reporting hazards which may affect the health and well-being of the environment.

Signed:

Position: Managing Director – Travers Clarke
